Description

RANGE & PERFORMANCE

Built with a wood hull and GRP superstructure, with teak decks, she has impressive speed and great efficiency thanks to her planing hull. Powered by twin diesel MTU (12V4000) 2,750hp engines, she comfortably cruises at 20 knots, reaches a maximum speed of 27 knots with a range of up to 680 nautical miles from her 15,000 litre fuel tanks. Her low draft of 1.47m/4'10" makes her primed for accessing shallow areas and cruising close to the shorelines. An advanced stabilisation system on board promises exceptional comfort levels at anchor or on any voyage. Her water tanks store around 4,000 Litres of fresh water. She was built to RINA (Registro Italiano Navale) classification society rules.
